INDEX

VOLUME V - 1966

The Index of articles published in the OAR RESEARCH REVIEW, Volume V, encompasses only 10 issues, from March 1966 to December 1966, inclusive. This reflects a shift in the volume year to permit it to coincide with the calendar year. Future Indexes will again embrace 12 issues of the Review. This Index is divided into 5 parts:

PART I CONTENTS OF VOLUME V, BY ISSUE

PART II AUTHOR BY-LINE INDEX

PART III LABORATORY/DIRECTORATE BY-LINE INDEX

PART IV ORGANIZATION INDEX

PART V KWIC (KEYWORD-IN-CONTEXT) INDEX OF TITLES

The index numbers used throughout Parts II, III, IV and V identify the issues and page numbers of the articles published in the Review (e.g., 7-15 refers to the article in Issue Number 7, page 15).

research review
OFFICE OF AEROSPACE RESEARCH

OAR RESEARCH REVIEW is published monthly by the Office of Scientific and Technical Information (RRYC), Hq Office of Aerospace Research, USAF, 1400 Wilson Boulevard, Arlington, Va. 22209. The objective of this publication is to make a positive contribution to the exchange of information concerning Air Force conducted and sponsored research activities.

JACOB SEIDEN
Editor

From the Editor:

Each article contributed to the Review has a by-line, showing either the author's name and organization (laboratory or directorate), or the laboratory or directorate alone. Where the by-line shows an author, his name would be found in Part II (Author By-Line Index). Where the by-line shows only a laboratory or directorate, this would be shown in Part III (Laboratory/Directorate By-Line Index). All organizations represented, however, no matter what the by-line, are shown in Part IV (Organization Index).

DISTRIBUTION OF THIS DOCUMENT IS UNLIMITED

For sale by the Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402 - $2.75 per year domestic, 75 cents additional for foreign mailing, 25 cents per single copy and 15 cents per Annual Index. Back issues will not be furnished.
